

Century Optional Items

Color Gelcoat FRP Canopy w/Fin Set

Century proudly introduces our highest Quality FRP colored canopy w/ Fins (Blue, Yellow & Green) for all 30/46 SE

- CN2242B Canopy w/ Fins Green
- CN2242B Canopy w/ Fins Blue
- CN2242B Canopy w/ Fins Yellow

Reversible One Way & Hex Start System

Adapts to starter shaft push into rubber insert. For all 30/50 SE (come with adapter). Extension adapts to most starters.

- CN0427 One way hex start ext w/adapt.
- CN0427A 5mm adapt

CNC Machined Finish Cap & Washer

Boy! these caps and washers make you look like a "PRO" (colors: Silver, Red, Blue, Gold, Purple, green, black 10pcs/pack)

- CN2217 screw cap 10 pcs
- CN2218 nut washer 10 pcs

Aluminum Turbo Cooling Fan

Increased 15% air flow, lower engine drag and smoother high speed operation.

- CN2202 Turbo cooling fan

2oz Header Tank w/ CNC Machined Mount or Die-cut Mount

(Purple Anodize)

- CN2137
- CN2213

- CN2213 Machined Mount
- CN2137 Die Cut Mount

Hot Dog 3-D Carbon Fin set

3D Hot Dog pilot can't miss this light and durable carbon fiber tail fin set.

- CN2240A Carbon Tail Fin set

Torque Tube Drive

The torque tube drive system replaces the wire drive eliminating tail rotor wind up, improves tail rotor response and reduces tail vibration and alignment problems. Combine the Torque tube drive with the Century's piezo gyro and fast servo for the ultimate 3D helicopter.

- CN0520 Hawk 30SE
- CN0520A Falcon 50SE

HV II Speed Torpedo Tuned Muffler

Finally a more powerful, larger, quieter tuned muffler come out to improve your engine performance.

- CN3033 for 30 SE
- CN3033A for 50 SE

Neon Glow Color Hot Dog Paddles

3D switchless inverted pilots must try out these lightning quick paddles! 3& 4 mm.

- CN2079Y (Neon Yellow)Hawk SE
- CN2079R (Glow Red)Hawk SE
- CN2079O (Glow Orange)Hawk SE
- CN2079YA (Neon Yellow)Falcon SE
- CN2079RA (Glow Red)Falcon SE
- CN2079OA (Glow Orange)Falcon SE

Carbon Tail Servo Mount w/CNC Aluminum Clamp

(Purple Anodize)

Adapts to tailboom for better servo performance. improves tail rotor response

- CN2239C Rudder Servo mount

Vortex Carbon Fiber Blades

Constructed of finest quality carbon fiber with German craftsmanship to the highest tolerance. fully Symmetrical for all sport and 3D flying.

- CN2501 550 mm Carbon Vortex
- CN2503 600 mm Carbon Vortex

Carbon Graphite Tail Boom Support

Super high quality, extremely light weight and ready to install dual tail boom support kit.

- CN2128 Hawk 30SE
- CN2128C Falcon 50SE

Carbon Fiber Tail Boom

3D flying has high demands from your helicopter, a carbon tail boom exceeds all standards for strength and stiffness.

- CN2126H Carbon fiber tail boom Hawk
- CN2126F Carbon fiber tail boom Falcon

Millennium Tuned Pipe with Header

Our newest top grade materials and hand polish finished high performance tuned pipe system will give you 10-15% more power.

- CN3055H Tuned Pipe Set 30 SE
- CN3055F Tuned Pipe Set 50 SE

10mm Hot Dog Main Shaft Thrust B.B. Kit

Any pilot moving into 3D or aerobatics should miss this item. Transfers all loading from the regular radial bearings to the thrust bearing.

- CN2220A Thrust Kit 10mm.....34.95

Crash Kit

(Includes tailboom, Wood blades, Flybar, Main Shaft & Head Spindle) our kits will save some of you hard earned cash. We have crash kits available for 30SE and 50SE,

- CN2230HS Crash Kit - 30SE
- CN2230FS Crash Kit - 50 SE
